We cordially invite you to come to our information presentation about how to invest in real estate, especially apartment buildings in the current market conditions.

In the presentation, you will discover:

- How to make money in real estate without doing any work
- A hidden treasure – the returns from apartment building investment
- What, why, how is apartment investment?
- Yes, you can make money and generate wealth in real estate in today's economical condition
- Use your retirement fund to invest in real estate.

Speaker Background: Melina Lin Holloway is the founder of MS Real Estate Company. The company specialize in multifamily investment and asset management. Melina has been in real estate investment since 2001. She is a full time real estate investor. She has hands-on experience of turning several distressed apartment buildings into fully occupied at market rent . Before focusing in real estate investment full time, Melina had been a structural engineer for 14 years, worked in high rise buildings, steel towers and water front structures. She has engineering licenses in several countries. The engineering background gave her great advantage of understanding the building construction.
